Hospice & Palliative Care

Hospice Volunteers Needed

Help your neighbors, join a caring team, and feel fulfilled

Bethany Hospice and Palliative Care is looking for caring people like you to brighten the lives of our hospice patients. We are excited to meet you and have you join our team! Volunteer opportunities are flexible to your availability. We will work with your interests, talents, and schedule. Volunteer at home or in the community.

Visiting and caring for hospice patients is very rewarding. Hear the stories and wisdom from someone else's life as they share the obstacles they have overcome and the lessons they have learned. In a busy facility, you will provide undivided attention and open ears. Help support family so that patients can stay in the comfort of their own home. You will walk away knowing someone else's day was made better because you volunteered.

Volunteers often:

- Visit hospice patients
- Support patients' families
- Relieve caregivers
- Run errands
- Create scrapbooks of patients' lives
- Visit with pet therapy animals
- Share the gift of music
- Organize administrative projects
- Perform Reiki
